

Conscious Crypto

90 day crypto masterclass mentorship for advancing
your journey

WHAT IF...

- **What if...** you could have complete SOVEREIGNTY of your finances and become your own bank?
- **What if...** you could be confident in making crypto transactions and moving value around blockchains?
- **What if...** you could generate Weekly, Daily, and Hourly passive income payouts by doing absolutely nothing?
- **What if...** you could go full-time as a crypto investor, travel the world, and enjoy the laptop lifestyle?

...without dealing with banks, credit agencies, or centralized 3rd parties who don't want you to succeed!

HERE'S THE PROBLEM...

Here's how most take their first steps in crypto:

- They take advice from paid influencers online or family/friends who may be hyped on a particular project, NFTs, or meme coin, but don't understand crypto fundamentals on a micro and macro level and the direction the space is heading.
- Usually what happens is a huge market dump and loss after they just invested in their first project, which sucks!
- Or they go to make their first crypto payment/transfer and they feel totally lost or end up sending it to the wrong address (this is what happened to me).
- Sadly, most people end up losing money when they first get into crypto, because they don't have the tools and knowledge necessary to succeed.

Eventually, these people give up and feel jaded on crypto. I don't blame them! **Feeling desperate sucks.** And knowing that you can change your life, yet continuously losing money can be soul-crushing.... **But it DOES NOT have to be this way!**

HI, I'M JAYSE

Hi! I'm **Jayse** and I founded Conscious Crypto. I know how it feels to get started in the crypto space - a few years back I was struggling to begin my crypto journey with no knowledge about finances or traditional investing, no understanding of crypto exchanges or wallets, no understanding of markets cycles, and absolutely no understanding of how I could begin to generate passive income for myself on a daily basis.

I was keen to make a quick buck, but I quickly learned a hard lesson: you can have all the desire to turn your life around financially... **but unless you dedicate yourself full time, or learn the fundamentals from someone who has experience** - it's impossible to achieve the sovereignty and financial opportunity you truly deserve in the time frame you desire.

So I set off on a mission to learn everything I could about cryptocurrency and decentralized ledger technology in an effort to go full-time as a coach myself and help other people where I struggled most.

In my search to learn how I could move more into financial sovereignty and independence, I was able to learn how to maximize my investments and knowledge including setup of multiple streams of passive income from my investments so they are always making me money while the markets go up and down.

WHO I WORK WITH

I have found that my system works best for these two groups of people:

1. Individual investors or business owners who have minimal or no crypto experience and are looking to learn the fundamentals, establish their personal/professional wallets, begin receiving and making payments, and get ahead of the average crypto investor through buying lower market cap alt-coins through smaller exchanges and wallets (Bittrue, Xumm, Lobstr and more).
2. Individual investors or business owners who have existing crypto portfolios, wallets, and moderate crypto experience including with ISO 20022 cryptos like XRP, XLM, SGB and Flare, and are looking to take their portfolio to the next level and really make the most of their capital through passive income streams in DeFi systems.

WHY I'M DIFFERENT

- I don't own Bitcoin or Ethereum and I can tell you why they are outdated and inefficient and why other projects are superior for financial sovereignty and mass adoption (unless you want to pay a \$200 fee and wait hours to send someone \$20).
- I'll give you **proven systems & structure** to accomplish your goals every single week.
- I can guide you through the entire process, from purchasing your first crypto to setting up passive income streams.
- I've lost thousands from my early mistakes and made tens of thousands from my successes; you can learn to avoid the mistakes I made along my journey to maximize your success.
- I support you with LIVE interactions at least once per week, as well as daily support.
- I am 100% results-driven, you get access to the material AND support.
- I'll teach you how to develop your mindset to **overcome your mental blocks and get ahead of the average investor.**
- I care deeply for your inner fulfillment, purpose, mission, and holistic transformation.
